SUMMARY

Computer Science graduate and System Engineer with hands-on experience across system integration, API/middleware development, monitoring & alerting infrastructure, and ETL pipelines in a regulated banking environment. Equally experienced on the organizational side: streamlining workforce and supply chain processes through data (~15% operational efficiency gain), leading student teams, and coordinating large-scale events. Professional Scrum Product Owner (PSPO I) certified, with a consistent track record of turning both technical and organizational needs into structured, actionable outcomes.

IT & SOFTWARE ENGINEERING EXPERIENCE

System Engineer | PT Bank Negara Indonesia (BNI) | *May 2026 – Present*

- Implemented monitoring dashboards and automated alerting pipelines, and ran ETL processes to keep data accurate and consistent across core banking systems.
- Developed and supported API integrations between internal banking platforms and third-party financial services.
- Supported QA testing of core banking applications and L2 incident handling, including reconciliation incidents.
- Alongside incident handling, took on overall system management responsibilities across the systems in scope.
- Produced technical documentation and collaborated with business stakeholders to translate data and system needs into technical requirements.

Freelance Full-Stack Web Developer | Multiple Clients (CV Cisarua, Jatrista Printing, CV Omega) | *Sep – Dec 2025*

- Built company-profile websites end-to-end (Next.js/React.js, Tailwind CSS), including data-driven service catalogs and interactive filtering tables.
- Handled deployment, SEO-optimized structure, and third-party integrations (WhatsApp API, Google Maps).

UI/UX Designer — SMART RT/RW Application | Freelance | *Jan – Feb 2024*

- Designed intuitive interfaces using Figma and Adobe XD, applying user-centered design principles to enhance community engagement.
- Used React.js to prototype interactive UI components and optimized user flows, contributing to a 15% increase in user satisfaction in testing feedback.

Program Engineer | Alf Tech Ventures | *Jan 2024 – May 2024*

- Led a Learning Management System web app project (JavaScript, React.js, SQL), translating client requirements into technical specifications.
- Maintained quality standards through routine testing (DBeaver, React.js) to ensure application reliability.

Data Analyst (Internship) | PT Telekomunikasi Indonesia | *Feb 2020 – Jun 2020*

- Managed and analyzed data using Oracle and Weka to generate insights supporting business decision-making.
- Built interactive dashboards and reports using React.js and Google Colab to communicate complex findings to stakeholders.

ORGANIZATIONAL, WORKFORCE & PROJECT LEADERSHIP EXPERIENCE

Cost Control & Business Planning – Data & Research | Tri Alfa Aurum Oil, Jakarta | *Feb 2024 – Aug 2025*

- Streamlined supply chain and HR/workforce processes through data analysis, improving operational efficiency by ~15%, supporting a business generating ~IDR 30 million/day in revenue.
- Managed corporate databases (SQL, DBeaver) to extract data-driven insights supporting company strategy.

Project Management, Warehouse System | Freelance | *Jul – Nov 2023*

- Managed warehouse system projects using Scrum and Agile methodologies, leveraging Trello for task tracking.
- Developed project timelines and used Google Colab for cost estimation and resource allocation analysis.

Staff, Transportation & Logistics — PACES | Universitas Padjadjaran | *Nov 2021*

- Led a team of 10 staff, planning and supervising logistics of required goods, monitoring inventory, and coordinating delivery to ensure timely, efficient project execution.

Staff, Transportation & Logistics — MIPA Awards 2020 | BEM Kema FMIPA, Universitas Padjadjaran | *2020*

- Served as logistics and transportation staff for the faculty-level MIPA Awards 2020 event.

Master of Ceremony — Padjadjaran Roadshow to School | Universitas Padjadjaran | *Feb 2020*

- Led event execution across multiple schools, maintaining audience engagement and handling technical or emergency issues on the spot.

ACADEMIC & PERSONAL SOFTWARE PROJECTS

Trading Fellah | Personal Project | *Multi-tenant SaaS for MT5 trading bots*

- Multi-tenant SaaS platform for MT5 trading bots (code on GitHub).

CAT Preparation Web App | Personal Project | *KDKMP managerial selection exams*

- Web app for practicing computer-assisted test (CAT) exams used in managerial selection.

Face Recognition Robot | Universitas Padjadjaran (with Medical Faculty students) | *During Bachelor's studies*

- Collaborated with a senior's thesis team and medical faculty students to build a robot with face recognition, applying Python for the recognition/detection logic.

Algorithmic Trading Bot | Personal Project | *During Bachelor's studies*

- Built a trading bot in Python to automate market data analysis and trade signal generation.

Data Mining & Machine Learning Coursework | Universitas Padjadjaran | *During Bachelor's studies*

- Applied Python for data mining and machine learning coursework, and object-oriented programming (OOP) projects.

OTHER PROFESSIONAL EXPERIENCE

Field Engineer (Internship) | PT Supraco Indonesia (Pertamina Hulu Rokan) | *Nov 2023 – Jan 2024*

- Applied root cause failure analysis (RCFA) and preventive maintenance procedures on rotating and fixed assets; used Google Colab for maintenance scheduling and data visualization.
- Recognized by site supervisors for strong collaboration, adaptability, and quick grasp of technical concepts, per internship completion reference.

EDUCATION

Bachelor of Computer Science (S.Kom.) | Universitas Padjadjaran, Bandung | *2019 – 2023, GPA 3.28/4.00*

- Thesis: Design and Development of an Inventory Information System Website for a Retail Company Using the Waterfall Method.

CERTIFICATIONS & TRAINING

- Professional Scrum Product Owner I (PSPO I) — Scrum.org, March 2025
- IELTS (IDP, UKVI General Training) — Overall Band 5.5, February 2025
- Bootcamp JuaraCoding, Java Back-End — Oct 2023 – Jan 2024
- Internship Completion Letter, Field Engineer — PT Supraco Indonesia / Pertamina Hulu Rokan, Jan 2024
- Huawei – IT Del Tech Day Webinar: Social Engineering Crimes on Digital Platforms and How to Prevent Them — Mar 2021
- Python Programming Language for Beginners (Dewatalks webinar) — Apr 2021
- HAITI (Hardskill for TI), Himatif FMIPA Unpad — Participant

SKILLS

- **Programming & Systems:** Java, JavaScript, Python, React.js, SQL, System Integration, API Development
- **Data & Analytics:** Oracle, Weka, SQL, DBeaver, Google Colab, ETL, Dashboarding, Data Visualization
- **Organization & People:** Team Leadership, Workforce Process Improvement, Event Coordination, Stakeholder Communication
- **Project & Business:** Scrum, Agile, Waterfall, Product Ownership
- **Languages:** Indonesian (native), English (IELTS Band 5.5 — Conversational)
